

READING MINDS

AND OTHER FASCINATING LIES

Coming to the Adelaide Fringe in 2016, the WORLD PREMIERE of, *Reading Minds and Other Fascinating Lies*, the magic show with no lame card tricks. Will take audiences on a mesmerising journey of mind reading, trickery and illusion, opening their minds to the world of magic, prompting them to question what things in our universe they can really control...

Showing at The Carry-On in Gluttony from 12th of February through til the 28th of February at 9:30 PM, then moving to 5:45 PM from the 8th of March until the 14th of March.

Presented by Adelaide based Magic Company *Fascinating Lies*, Magicians and Mentalists, Jden Redden and Andrew Lymn-Penning, have created a new and totally unique magic experience. Audiences will bear witness to some of the most innovative illusions being performed across the globe and, with no lame card tricks in sight, those who join us on our journey each night will leave the show baffled by the things they witness. From synthesising an audience requested McDonald's order, to the biggest game of Guess Who! with your 100 best friends, the pair has crafted a contemporary, out of this world show, exclusively for the Adelaide Fringe stage. Don't forget to bring your iPhone, as Social Media are intermixed with traditional magical methods, to create a new class of illusions. In a world first, audiences will have front row seats to a **Live Bullet Catch**, which has been attempted by many but accomplished by only one...until now.

So, join us during the 2016 Adelaide Fringe Festival to experience for yourself, our power for *Reading Minds and Other Fascinating Lies*.
